

Privacy and freedom are our top priorities at Liberty Lives (LL). We believe that it is in every freedom lover's best interest to both increase privacy (especially when it comes to technology and its uses) as well as to become more self-reliant and self-sufficient. The services we offer include: privacy technology, education/tutoring, cryptocurrency/alternative currency services, and food security. In so doing, we empower our autonomy as individuals.

1. Privacy Technology

By default, all cellphones either run using Google's Android or iOS (Apple); computers run on Microsoft Windows or Macintosh's operating system. There are, however, alternative operating systems that help reduce data leakage and improve privacy.

Services Offered

- Installation of privacy oriented operating systems for cellphones and/or computers
- Procurement of hardware (if current cellphone/computer is incompatible) based on need
- Acquire accessories including faraday cages
- Assistance with newly installed interface(s) for a smooth transition
- Advice about privacy platforms such as search engines, video watching software, Virtual Private Networks (VPN) etc.
- Purchasing & configuring Virtual Private Network (VPN) routers
- Suggestions of more private and secure communication platforms and techniques online

Future Services

- Repairing phone hardware

2. Education

Education & Tutoring: Liberty Lives believes that homeschooling, micro schools and learning pods are the future of education. We stand for a more personalized approach to teaching, ensuring that every student is taught the necessities (like mathematics and English skills) and are able to learn their passions. If we teach the future generation appropriately, they will be able to prosper.

Services Offered

- Aid in the development of curricula with homeschooling parents
- Provide resources to assist in homeschooling
- Tutoring & Education Sessions: One-on-one or small groups (more information provided upon request)

3. Cryptocurrency and Alternative Currencies

At LL, we believe that alternative means of transacting/trading is valuable. Therefore, we offer instructional sessions on how to transact in other forms of currency such as precious metals and cryptocurrency.

Services Offered

- Training in cryptocurrency

- o How to onboard money privately
- o Recommended wallets and exchanges
- o How to perform peer-to-peer transactions
- Training in use of precious metals
 - o Useful metals to trade
 - o How to procure/trade with them

4. Food Security

In general, becoming more self-reliant and self-sufficient is an important investment. This begins with the ability to grow personal vegetable and fruit gardens. At LL, we teach/use permaculture practices, which involve maintaining and using the environment in an efficient and sustainable manner to increase environmental health, to grow food.

Services Offered

- Instructing on how to begin and maintain a garden involving:
 - o Assessing space, soil, and the desired type of vegetation
 - o Providing information on composting
 - o Presenting means of reducing soil disturbances
 - o Providing information on mulching to increase soil health
- In the coming season:
 - o Seedlings of specific crops will be offered to help start the garden

Future Services

- Establishing peer-to-peer food networks
 - o Directly connecting growers and consumers
- Building and providing raised beds to aid with garden configurations
- Hydroponics and aquaponics education and installation

Can Liberty Lives help with any of the services listed?
